BEGINNING OF THE END.

Conclusion of the Commission's Work a Matter of Hours.

FINE PROGRESS BEING MADE

Thirteen Articles, Covering as Many Subjects, Laid Before the Conference, Six of Which Are Speedily Agreed Upon.

Paris, Dec. 1.—There were 13 articles laid before the two commissions at the peace conference, covering the following subjects:

First—The relinquishment of sovereignty over and claim of title of Cuba. Second—The cession of Porto Rico and other Spanish possessions in the West Indies, together with Guam in the Ladrones. Third—The cession of the Philippines. Fourth—The terms of the evacuation of the Philippines. Fifth—The pledge of the United States to preserve order in the Philippines pending the ratification of the treaty. Sixth—The release of military prisoners mutually. Seventh—The cession by Spain of the island of Kusae, or Strong Island, in the Carolines. Eighth—The mutual relinquishment of indemnity claims. Ninth—The religious freedom of the Carolines, assuring the rights of American missionaries there. Tenth—Cable landing rights at points within the Spanish jurisdiction. Eleventh—The release by Spain of political prisoners for offenses in Cuba and the Philippines. Twelfth—The pledge of the United States to inaugurate in the Philippines an "open door" policy and to guarantee the same to Spain for at least 12 years. Thirteenth—A revival of the treaties broken by the war.

The first three articles were mutually agreed upon, as was also the articles embodying the terms of the evacuation of the Philippines, which will be practically the same as in the evacuation of Cuba and Porto Rico. The mutual release of military prisoners was speedily agreed upon, the Spaniards liberating the rebel prisoners and the United States liberating the Manila garrison and the Spaniards held by Aguinaldo. The political prisoners to be released by Spain are such as are now in exile at Ceuta, in Morocco, or at other Spanish penal settlements. Daily sessions will be held hereafter and it is now believed that the work may be possibly concluded this week.

TO PAY CUBAN TROOPS.

General Garcia Arranging For a Touch at the National Capital.

Washington, Dec. 1.—The members of the commission delegated to visit the United States to discuss with officials of this government, the many problems which confront both Cubans and Americans on the island are here. The commission is headed by General Calixto Garcia, the veteran soldier and leader.

One of the principal questions to be discussed will be that relating to the disposition of the Cuban army. In the course of an interview, General Garcia said it would be a hardship for the Cuban army to disband at this time without receiving pay for its services in the field. The soldiers are now anxious to return once more to peaceful pursuits. In a majority of cases, however, their homes have been destroyed and their lands laid waste. They hope some method may be provided whereby they may be given sufficient means to gain a new start in life. General Garcia has no suggestion to make as to the method of providing this means, but expresses the hope of obtaining, through the assistance of this country, a sufficient amount partly to reimburse the Cubans for their services in the field. He says that the Cuban government stands pledged to pay its soldiers and will in good faith live up to any agreement that may be made for the adjustment of the temporary difficulty.

Concerning the proposition which has been made to annex the island to the United States, General Garcia said: "I do not think that is a question which can be discussed or settled at present, because the congress of the United States has declared by a most solemn enactment that the people of Cuba ought to be free and independent. I have such faith in the honor and integrity of the United States that I am satisfied that declaration of congress will be carried out."

Sampson's Latest Report.

Washington, Dec. 1.—The navy department has Admiral Sampson's report covering the operations of the United States blockading fleet off Santiago after the destruction of Cervera's squadron.

Carlota Being Watched.

Bordeaux, Dec. 1.—Advises received here from Bilbao, Spain, refer to the rigorous anti-Carlist precautions taken in that district. The convents, it appears, are particularly watched. For-

traits of Don Carlos and Don Jaime, his son, have been widely distributed. A small band of Carlists have appeared near Alcala, in the province of Castellon de la Plana, and is being pursued by gendarmes.

SENATOR HOAR

Declares Against the Acquisition of the Philippine Islands.

Worcester, Mass., Dec. 1.—Senator Hoar announced himself as positively opposed to the acquisition of the Philippines by the United States.

In a communication he says: "If the report is true that it is proposed to buy of Spain the 'sovereignty of the Philippine islands,' and to pay \$20,000,000 for it, I do not believe that such a treaty will be agreed to, and I do not believe it ought to be agreed to. "Spain has very little sovereignty in the Philippines to sell just now, and I do not think the people of the United States are in the market to buy sovereignty, or that the constitution has conferred on any body the right to buy any such commodity. The constitution was framed upon the theory that sovereignty is not a saleable article. "The people of the United States have conferred on nobody the power to make such purchases in their behalf. We have acquired territory either vacant or so sparsely settled that there was no people capable of governing it and no germ of a national life. We have also in one recent case acquired a territory where the original germ of national life had perished. But neither of these precedents applies to the Philippine archipelago, with its millions of inhabitants."

Will Muster Out Volunteers.

Washington, Dec. 1.—If congress, early in the session, should make provision for the increase of the regular army it is quite probable that none of the volunteer regiments now in the service will be sent to do garrison duty in Cuba. The troops first to be sent to Cuba will be composed largely of regular regiments, so far as they are available. Plans are maturing for the muster out of as many volunteers now in service as is possible. The demand of the enlisted men to go home and leave the service is growing greater every day. This is true in nearly every garrison, and the arrival of senators and representatives with requests for the muster out of regiments has largely increased during the past three days.

Improvement in the Army.

Washington, Dec. 1.—A great improvement in the health of the army has taken place within the last two months, as shown by the last reports to the surgeon general from the field and general hospitals. The hospitals at Chickamauga park have been emptied and abandoned. The same is true of the division field hospitals at Camp Hamilton, Lexington, Ky., and Jacksonville, Fla. The hospital train, which has carried nearly 4,000 sick men from the various camps to general hospitals, is now lying idle at Washington.

Hanscom Pleads Not Guilty.

Philadelphia, Dec. 1.—The court-martial appointed to investigate the charges made against Naval Constructor John F. Hanscom, the League Island officer accused of allowing workmen at the navy yard too much pay for overtime, proceeded with their inquiry. The proceedings opened with the reading of the various specifications of the four charges against Hanscom, and the latter, who was present with his counsel, Attorney Theodore Metting, responded "Not guilty" to each of the specifications as read.

Waiting For the Tide.

Savannah, Dec. 1.—The transport Chester, which left this port Monday for Cuba with the Fifteenth United States Infantry on board, is still in the river four miles below town. After being pulled out of the mud by six tugs she again went aground in endeavoring to turn around and was left alone until the fog cleared. She was pulled off for the second time, and is now safely anchored waiting for the tide.

For Cuba's Destitute.

Washington, Dec. 1.—The Comal has sailed from New York to Savannah, where she will complete the loading of 1,500,000 rations for the destitute people of Cuba. The point where she will land has not been determined. The Bratten is now unloading 700 tons of provisions in the province of Pinar del Rio.

Died of Lockjaw.

San Juan de Porto Rico, Dec. 1.—The United States transport Othman, which is due to arrive at New York on Dec. 12, bears the remains of George S. Willets of Chicago, who died here from tetanus, following the administration of hypodermic injections.

Will Teach and Not Preach.

New York, Dec. 1.—Rev. Thomas Hall will not succeed his father, the late Rev. John Hall, pastor of the Fifth Avenue Presbyterian church, for he has accepted the chair of Christian ethics in the United Theological seminary, which was vacated by the Rev. Briggs.

EVILS OF EXPANSION.

Ex-Minister to Spain Expounds on a Timely Theme.

DENOUNCES PEACE TERMS.

Arrangements of American Commission Characterized as a Vast Ravishment of the Weak by the Strong.

New York, Dec. 1.—Hannis Taylor, late American minister to Spain, has published a scathing criticism of the work of the American peace commission.

Mr. Taylor contends that in the negotiations with Spain respecting Cuba, Porto Rico and the Philippines, the members of the commission should have been guided by the precedent established by this country in its dealings with Mexico after the victorious issue of the American war. Then, he says, we refused, as Mexico lay helpless at our feet, to take from her a single square mile of territory by right of conquest. Our commissioners were instructed to offer her \$15,000,000 in cash and the assumption upon our part of more than \$3,000,000 due from her to American citizens as compensation for the area out of which has been carved California, Nevada, Arizona, Utah and New Mexico. "And thus," says Mr. Taylor, "was established a new principle of moral law which stands alone, perhaps, in the annals of the nations."

Mr. Taylor contends that now, when for the first time since the conquest of Mexico, we have another vanquished nation at our feet, we owe to Spain all the consideration and justice that can be due to the weak from the strong, especially as Spain has been an old and a good friend, with whom we had never before broken off diplomatic relations. The arrangement which has been concluded by the American commission, Mr. Taylor characterizes as "a vast ravishment."

"We have refused arbitration. We have summarily demanded the surrender of the entire Philippine archipelago, and as a salve to Spain we have tendered \$20,000,000. The war has cost us directly about \$165,000,000, and as compensation for that outlay we have appropriated Porto Rico, which can hardly be valued at much less than double that amount. It is difficult to understand, therefore, why, in dealing with Cuba and the Philippines, we should have been unwilling to recognize those reasonable and natural equities which follow acquired territories.

"In the case of the Philippines we have admitted that so far as the debts of these islands represent expenditures for the improvement of the country they must 'run with the land' and constitute a charge upon it. Upon what grounds have we rejected the application of that elementary principle of law and common honesty to the case of Cuba? The pretense that it can not be there applied because we do not intend to accept sovereignty over Cuba will not avail, for as soon as Cuba is evacuated by the Spanish troops the United States will exercise a qualified sovereignty over the islands and being a military government there and rigidly enforcing all laws for the purpose of collecting revenue, both external and internal, a condition which must exist until congress orders otherwise. In the case of Cuba, as well as in that of the Philippines, the amount of pacific expenditures made by Spain for the permanent improvement of the island should have been recognized as a legal charge upon it."

Message From the Sea.

Plymouth, Mass., Dec. 1.—A piece of bamboo picked up in the surf here brought a story of death and the loss of the schooner White Wings of Gloucester in the recent storm. It contained the following message: "We will be lost, 13 of us, in fishing schooner White Wings from Gloucester. Have no bottle to put it in. Everything is gone. We are about to go on a raft. If I could only see my wife and darling child again. Albert Simmons."

Driven Ashore.

Swampscott, Mass., Dec. 1.—The three-masted schooner Edgar Hanson, coal laden, bound for Portsmouth, N. H., has gone ashore on Dread Ledge, off Nahant. A volunteer life saving crew responded to her signals and rescued the crew.

Ohio Floated.

Boston, Dec. 1.—The steamer Ohio, which went ashore on Spectacle island during Saturday's storm, was floated by five tugs and brought to her dock. It is thought she is not badly damaged.

DELLENBAUGH'S FRIENDS

Will Resist the Adoption of Any Verdict Reflecting on Him.

Cleveland, Dec. 1.—President J. M. Henderson of the Cleveland Bar association issued a call for a meeting of that body at 1 p. m. Saturday, when the verdict in the disbarment proceedings against State Senator Vernon H. Burke will be made public.

It is expected the verdict will cause a hot fight. It is stated that friends of Judge Dellenbaugh will be present in force.

Any attempt to adopt a verdict which in any way reflects on the judge will be resisted by them for all they are worth, it is said. They will insist the verdict be a conviction or a simple acquittal of Burke.

Troops at Pana Relieved.

Pana, Ill., Dec. 1.—After 50 days continuous riot duty in Pana, troop B of Bloomington, First Illinois cavalry squadron, were relieved by company K, Fifth regiment, of Delevan. Desultory shooting continues nightly, the provost guard having but little success in effecting captures. Another consignment of negroes have arrived. They were met at the train by a squad of soldiers, who relieved them of arms before permitting them to march to Springfield nine barracks. The white miners are remaining steadfast for the scale and union recognition. They received \$1,600 from the state union.

John Hancock's Confession.

Los Angeles, Dec. 1.—John Hancock, who has just been taken to San Quentin to serve a 10-year sentence for burglary, has confessed that he and Winifred Myers murdered Dr. Engelke and Pete Edmiston on the desert in southern Nevada over a year ago. Hancock says the crime was planned by the woman, with the object of securing the horses attached to the wagons belonging to their victims, in order that they might continue their journey to Salt Lake, their own horses being fagged out.

Two Bids Opened.

Washington, Dec. 1.—Bids were opened by Commodore Endicott, chief of the bureau of yards and docks, for the construction of a combined floating and graving steel dock at Algier, La, the limit of costs for which is \$550,000. But two bids were received, Charles L. Bradbury of New York bidding the exact limit of the cost of the dock. The Maryland Steel company of Baltimore submitted a bid of \$310,000 to build the dock according to the plans of the bureau.

Convicted of Arson.

Philadelphia, Dec. 1.—A. Lincoln Landis, a member of the firm of Mayer, Landis & Company, whose file works were burned in September, 1897, was convicted of arson, the jury finding him guilty of having set fire to the establishment. There was a mortgage on the plant and execution had been issued on it and a date fixed for the sheriff's sale. The insurance on the property was held by a relative of Landis.

Linseed Oil Trust.

New York, Dec. 1.—R. C. Eddy, a lawyer from Chicago, who has been here for two days, has practically succeeded in effecting a combination of the linseed oil interests of the country, stock of the prominent linseed oil interests in the United States having been exchanged for stock in the new organization. It is said that the capital stock of the new concern will be \$30,000,000.

Awaiting the Senate's Approval.

Washington, Dec. 1.—No more presidential appointments of postmasters will be made until congress convenes. UPRISING IN SALVADOR

It Has Reached Dimensions of a Revolution.

VIEWS OF LATIN DIPLOMATS

A Revolt That Means the Death Blow to Newly Formed Republic Known as the United States of Central America.

Washington, Dec. 1.—The uprising in Salvador has reached the dimensions of a revolution, in the judgment of officials and diplomats familiar with affairs in that quarter. President Gutierrez has given way to General Regalado, who has formed a provisional government. The changes are construed by some of them as a death blow to the newly formed republic, known as the United States of Central America, composed of Salvador, Nicaragua and Honduras, one of whose main purposes was to provide a joint military force for common defense against uprisings, but other diplomats take just the reverse view.

A gentleman sustaining an official relation to the government of Nicaragua, who is here in connection with canal affairs, said that the deposition of President Gutierrez by General Regalado appeared to be established beyond doubt. In the judgement of this official the change would be rather favorable to the Central American union than otherwise, for the reason that General Regalado was known to be a sincere friend of the union, whereas President Gutierrez was regarded as a secret foe to the alliance.

Members of President Iglesias' party, on the other hand, construe the result of the Salvadorian uprising as a death blow to the Central American union. One of the chief officials of the party said the union was designed for the sole purpose of keeping in power the three rulers of the states entering the union, namely, Zelaya of Nicaragua, Bonilla of Honduras, and Gutierrez of Salvador. This official said he understood that in the uprising General Regalado, who led the movement, had on his flags words signifying his purpose to oppose the union and to demand the separate sovereignty of Salvador.

Much curiosity is aroused as to the whereabouts of former President Gutierrez, as the reports do not say what has become of him. One of the officials here believed that Gutierrez has been allowed to escape.

Among the Costa Ricans who are here the outcome of the Salvadorian trouble is taken as another reason why Costa Rica should not join the Central American union. President Iglesias has regarded the union as experimental.

Union Collapsed.

Managua, Nicaragua, Dec. 1.—The attempt to effect a coalition between the states of Nicaragua, Honduras and Salvador, to be conducted under a common administration and known as the United States of Central America, has failed completely. The federal organizers formally declared the union dissolved, the three states resuming respectively absolute sovereignty. The collapse is due to the failure of the troops of Honduras, acting in behalf of the federal organizers, to suppress the outbreak in Salvador against the proposed federation and to force Salvador into the union.

Result of the Race Riots.

Columbia, S. C., Dec. 1.—In the United States district court, upon indictments handed out by District Attorney Lahrop, the grand jury returned true bills against nine well known citizens of McCormick, S. C., upon the charge of conspiracy, the offense being the driving away from that town at the time of the recent Phoenix trouble of J. W. Tolbert, the husband and assistant of the postmistress.

Virgen Rioters Indicted.

Carlinville, Ill., Dec. 1.—The Virgen riot investigation by the Macoupin county grand jury is practically concluded, and the state's legal representatives are busy drawing up the bills of indictment. That true bills have been returned against all who participated in the battle of Oct. 21 as far as the investigating body can ascertain, is virtually assured. The nature of indictments cannot be learned.

Foraker's Views.

Washington, Dec. 1.—Senator Foraker says an extra session of congress can hardly be avoided. He does not see how all the work before the congress, can be finished by the fourth of March. He does not anticipate much opposition to the treaty with Spain if it goes no further than taking the Philippines. He is in favor of ratifying the treaty and then allowing the Philippines to remain under military administration till December of next year, by which time we will know how to deal with the islands.

For Kentucky—Partly cloudy, with rain or snow in extreme eastern portion; northwest winds.

No action was taken yesterday by the State Election Commissioners on the vote in this district. The case will be considered to-day.

We pointed out long ago that General Fitzhugh Lee wouldn't cut much of a figure in matters relating to either Spain or Cuba if it depended on President McKinley's favoring him.

LIEUT. HOBSON has refused an offer of \$50,000 for a series of lectures this season. He says that previous to the sinking of the Merrimac his lectures would not have been worth fifty cents, and that what he did at Santiago was simply a performance of duty. There are few men like Mr. Hobson.

In no portion of the United States is the outlook so bright for the development of American shipbuilding as the South. In the days of wooden ships, New England was the center of that great and then flourishing industry, but in these days of steel the indications all are that the South will furnish its full share of the ships for the future carriage of American commerce. The big plant at Newport News already has a fine record.

It behooves the honest and straightforward people at the present time to take note of the infamous and disgraceful methods to which the Democratic party, under the ban of the Goebel Election Law, is resorting in order to place in office their nominee for Congress in this the Ninth Kentucky district.—Flemingsburg Gazette.

Say, Br'er Wilt, what about the "infamous and disgraceful" action of the Boyd County returning board two years ago in throwing out two precincts that gave a Democratic majority of over 200?

GEORGE A. PORTWOOD, the murderer of Richard Parkins, whose execution was to have taken place this week but whose life was saved by the Governor, became very unruly at the county jail Monday afternoon. He has been a model prisoner until Monday, when for some unknown reason he smashed the window glass in his cell and was tearing up the woodwork when the jailer put a stop to the operations.—Lexington Herald.

Probably he was mad because the Governor didn't pardon him outright, and then give him a gold medal for the Parkins murder. It's too bad that a brute like Portwood has to be confined in the penitentiary for coolly walking into a man's business house and shooting down his victim.

IMPURE FOOD.

Lexington Dealers Must Answer For Violations of the Law.

LEXINGTON, Ky., Nov. 29.—In accordance with the pure food law passed by the last Legislature, Prosecuting Attorney Allen will on Monday report to the grand jury impurities in butter, vinegar, jellies and other such commodities being sold in Lexington.

These discoveries were made by Director W. M. Seovell, of the Kentucky Experiment Station, and he will inform Louisville authorities also, as similar evils prevail there.

The Herald says: "The firms against which action will be taken at once are the manufacturers of oleomargarine or butterine who have been placing their goods upon the market branded as country and creamery butter. They are of Columbus, O., and Chicago. It is also understood that some local dealers are implicated, as they buy this butterine at butterine prices and sell it at creamery or country butter prices. Of course if this can be proven by the prosecuting attorney it will be a serious matter for the merchants alleged to be involved. The law passed last year says that if any one shall sell knowingly misbranded or adulterated goods as unadulterated goods, he shall be liable to a fine not exceeding \$500.

SHERIFF PENNINE and his deputies collected about \$17,000 taxes Wednesday.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at J. Jas. Wood's drug store. Regular size 50c. and \$1. Guaranteed or price refunded.

PREPOSTEROUS

Folly of Abandoning the Policy That Has Made the Nation Great.

(Pittsburg Post.)

Probably the most puerile and absurd attempt at vindicating imperialism as illustrated by Philippine annexation, is in the alleged argument it is essential to our trade development.

As we are now prospering, and have been for 100 years under institutions transmitted by Washington and Jefferson, and maintained by Jackson and Lincoln, as no other nation has prospered in the history of the methods and scope of government? Is it right under such conditions to attempt rash and admittedly dangerous experiments, that bring us within the zone of European and Asiatic wars, and make us a party to their eternal clashing over the balance of power and the "spheres" of monarchical influence?

The President has the power to drive the country to the quicksands and rocks of imperialism. If he knows his own mind, which Andrew Carnegie doubts, he is steering the ship of state in that direction.

If we were not now in the highest pitch of prosperity as to the extent and growth of our foreign commerce—if, on the contrary, we were in the slough of trade depression, unable to market our commodities and with a decaying commerce, there might be a semblance of reason in the demand that we should abandon our traditional policy and accept dangerous risks and unknown perils in the hope of betterment. But look at the facts. The reverse is the case. Our wise policy of minding our own business, avoiding entangling alliances and the acquisition of distant colonies has had its splendid vindication in the last hundred years and a recent culmination in the striking fact we have passed Britain, and the United States to-day in the bulk of its foreign commerce leads the nations of the world.

Yet it is at this very time, with a glorious vindication of the true American policy patent to every intelligent man, we are driven to cast it aside and abjure certain and astounding success for perilous experiments that every page of history tells us are fatal to republics.

The folly of this preposterous abandonment of the tested and approved for the known and dangerous is the insanity of demagogism, and unless the American people have lost their manhood, self-assertion and the grand common sense linked with their fortunes in great emergencies, they will repel this treason to their highest interests—to the moralities of their public life—with scorn and indignation. Only give them a chance. But that is the very thing the imperialists deny them. We are to be dumped into the rapids and made to shoot Niagara whether we will or not.

THE BLACK DIAMOND.

It is Given Out That British Capital Will Be Put Up to Build the Road—Will Cost Only \$40,000,000.

KNOXVILLE, TENN., Nov. 29.—The local promoters of the Black Diamond Railroad scheme to-day received information that Sir Thomas Tancred, the English engineer sent to this country by an English financial syndicate, would recommend that the road be built by his people.

Before starting for London the engineer stated to Col. Albert E. Boone, of Zanesville, Ohio, the chief promoter, and other prominent men interested in the deal, that he would approve the survey and recommend the investment. This is considered a consummation of the financing. Colonel Boone has the contracts for building the road, and expects to commence work the 1st of next May.

The road will extend from Port Royal, S. C., to Columbus, Ohio, penetrating all the coal fields of East Tennessee and Kentucky and passing through this city. It will be 822 miles long, double track, and cost \$40,000,000.

All who are interested in the study of literature are cordially invited to attend.

AN island for five cents seems an absurdity, but one situated in the Straits of Mackinac was sold for that price last week by the register and receiver of the Marquette land office. The island in question is Rock Island. It was put up in a bunch with Goose, Eagle and Haven Islands, and sold to the highest bidder, who happened to be William St. James, of St. Ignace. None of the islands contains an entire acre. Mr. St. James bid \$1.25 an acre for the property. As Rock Island contains just one twenty-fifth of an acre its purchase price was five cents.

Children's Stockings!

"Hercules" brand, so called on account of great wearing strength. These Stockings have the quality that gives proper warmth and service and the shaping that gives the proper fit. Hard to quote prices intelligently because of variations caused by wide difference in sizes. These by way of suggestion: Children's Black Ribbed Cotton Hose, all sizes, at 10c. and 15c. a pair. Another grade at 20c. or 25c., by size. Full fashioned hose, shaped to fit, 25c. to 35c., according to size, up to the finest at 50c.

FEDORA GLOVES.—A dollar sounds cheap for Kid Gloves—it is cheap. But whoever thinks of Fedora Gloves as cheapish? They can only be compared to Gloves at a dollar and a half—so good are they. Black, white and colors.

WHY NOT?

If We Must Pay For the Philippines, the Money Should Go to the Filipinos.

(Boston Herald.)

The proposed payment of a large sum of money to Spain for the Philippine Islands is likely to strike many people with surprise. There is in it something like a confession that they have not fallen to us in a way that puts us under obligations to take them, which may be objected to. Neither individuals nor nations pay large sums for the privilege of discharging a duty which it would be a wrong on their part not to meet.

The anomaly in the case was that, while the cruelty, the injustice, the rapacity of Spain toward the Philippine Islands were depicted in a way which seemed to leave us no alternative but to engage in the rescue of this people from her control, and we had so rescued them, we were then asked to spend \$20,000,000 to buy Spain away. But what had Spain to sell? We had completely conquered her at arms? She had no military foothold remaining in the Philippines. There was clearly nothing left but the equity in the case. What equity were we obliged to recognize toward her as the effect of wresting from her a power that she had abused to an extent that compelled us to deprive her of it? Would it not have been far more appropriate for us if we had \$20,000,000 to spend in that quarter to distribute it for the benefit of the depopulated, rather than make a gift of it to the despoilers?

It strikes us that, if we make this money outlay for national aggrandizement, we can use it better elsewhere, and if it is to be parted with on the ground of equity and philanthropy, there is an obviously preferable field for its use.

THE Court of Appeals has decided the case of Mason Gooch, Hoge & Co. and others against the Southern Construction Company, of Louisville, involving \$150,000. The stockholders of the construction company were sued by the creditors of the company to recover \$150,000 which the company had distributed to its stockholders, the creditors claiming that said payment of unearned dividends amounted to an appropriation by the stockholders of the entire capital stock of the company. The Court of Appeals sustains the contention of the creditors and directs the stockholders of the company to refund the \$150,000 and take their chances with the creditors of the company.

A Popular Young Couple Wedded at Washington Last Evening.

The Christian Church the Scene of a Brilliant and Beautiful Nuptial Event.

Not in many years has Washington society witnessed an event so brilliant and so beautiful as the marriage of Miss Elizabeth Bland and Mr. Elmer Gordon Downing, which was celebrated at the Christian Church at 8 o'clock Wednesday evening.

The interior of the church was decorated with a profusion of flowers and presented a handsome appearance. It was exceedingly appropriate that a flower of such delicate beauty as the chrysanthemum should be the prevailing flower at the ultimate union of two such hearts.

Mrs. Dr. White presided at the organ, accompanied by Dr. Smoot on the violin, and when trained fingers and artistic touch poured forth the wedding march all was hushed.

The Mendelssohn wedding march was played while the bridal party entered.

First came the ushers—Mrs. Robert Downing in a lovely pale blue costume, carrying white chrysanthemums, and at same time Miss Flora Hunter in a dainty pink frock, with pink chrysanthemums. Then followed the two bridesmaids, Miss Mayme Elizabeth White and Miss Margaret Smoot, wearing exquisite French gowns, one of pink and one of blue, carrying the pink and the white plume chrysanthemums tied with ribbons. The groomsmen, Mr. Bland Kirk and Mr. Ben Downing, came up left aisle at same time. The maid of honor, Miss Nannie Metcalf, and the best man, Mr. Robert Downing, brother of the groom, came up separate aisles. Miss Metcalf wore a toilette of white organdy veiling, elaborately trimmed in ruffles and satin ribbon. She carried white chrysanthemums.

The bride and groom entered together, the bride beautifully and attractively robed in a long-trained gown of heavy white corded silk, exquisitely finished in mouseline de soie and pearl trimmings. She carried on her arm a large bouquet of Bride roses, tied with ribbon streamers. Her veil was caught with orange blossoms.

During the ceremony Schumann's Traumerel was played. To the strains

of the sweetest and softest music, with words as touchingly beautiful and as solemnly impressive as ever fell from human lips, Rev. B. Metcalf, an uncle of the bride, pronounced Elmer Gordon Downing and Elizabeth Bland man and wife. The processional left the church to the strains of the Lohengrin march.

There has been no marriage in this vicinity in which the contracting parties were held in higher regard by the people, young and old, than Mr. Downing and Miss Bland. The bride is a beautiful, kind-hearted, pure, and in every way a womanly woman. She is the only child of Mr. and Mrs. R. C. Bland. The groom is one of Mason's finest productions of manhood, a straight-forward, honest, upright young man, with a heart as tender and pure as the woman's he has won. We tender to them the beautiful sentiment: "May the music of your lives be the sweeter for being blent together, and may it, in richest harmony, echo the song the angels sang in the beginning, of peace, good will toward all men; may love hush every discord, and may its last strains be the prelude to divine melody."

A reception to the bridal party followed at the bride's home. Many beautiful presents were received.

Mr. and Mrs. Downing will be at home at Washington.

The Residence of H. L. Cordry Destroyed Near Dover—August Kreitz's Home Damaged.

Wednesday morning at half past four o'clock the residence of Mr. August Kreitz, of Bernard, caught fire from a hearth caving in up stairs. The hired hand, Warren Baldwin, awoke nearly overcome with smoke. Groping his way out of the room and downstairs he awoke Mrs. Kreitz, Mr. Kreitz being absent from home, she stood in the snow and ice in her bare feet and night apparel and rang the farm bell for some time but no help came. In the meantime Mr. Baldwin succeeded in extinguishing the fire with comparatively small damage.

Mr. H. L. Cordry's residence near Dover was entirely destroyed by fire on the morning of November 26th. Loss \$1,200. It was insured for \$800 in the Farmers' Home Mutual Aid Association of this county.

BATH County offered \$15,500 for seven miles of the Owingsville and Mt. Sterling pike, but the company refused to sell for less than \$17,000.

IT DOES PAY.

A Denver Firm Used Some Printers' Ink and Here's the Result of Their Advertising.

Until last January Fischel Bros. & Wise, dry goods merchants of Denver, Col., did not advertise. They decided to spend \$250 a month, but their bill was a little less than that. So far, the percentage of increase over the business for the first six months of 1897 has been: January, 112 per cent.; February, 144 per cent.; March, 163 per cent.; April, 109 per cent.; May, 100 per cent.; June, 116 per cent.

Last month the firm did the largest business in its history—2 per cent. larger than during March and June of 1897 combined.

The increase in business for the six months of this year over the first six months of 1897 was 123 per cent., and over the first six months of 1896, 148 per cent.

To advertise successfully you must do it so as to reach the buyers, not of one class, one party or one denomination. In the next place it must be done persistently, not spasmodically. Then it pays.

SULPHUR FOR DIPHTHERIA.

The Humanitarian Claims It is a Sovereign Remedy For This Terrible Disease.

[The Humanitarian.]

Sulphur is one of the most efficacious and simple cures for diphtheria. All that is needed is flour of sulphur and a quill, and with these, it is said, one celebrated physician cured every patient without exception.

He put a teaspoonful of sulphur in a wine glass of water, and stirred it with his finger instead of a spoon, the sulphur not readily amalgamating with water. When the sulphur was well mixed the physician gave it as a gargle, and in ten minutes the patient was out of danger.

Sulphur kills every species of fungus in a man, beast and plant in a few minutes. Instead of spitting out the gargle, the swallowing of it is recommended. In extreme cases in which the above specialist had been called in the nick of time, when the fungus was too nearly closing to allow the gargling, he blew the sulphur through a quill into the throat, and after the fungus had shrunk to allow of it, then the gargle.

BOURBON TOBACCO GROWERS.

They Advise Consumers and Dealers to Boycott the Big Trust by Refusing to Use Its Goods.

[Paris Kentuckian.]

The tobacco growers of this county met in the court house Saturday, November 26th, and on motion J. A. LaRue was called to the chair and Forrest Letton was appointed Secretary. After an interchange of views the following resolutions were adopted:

WHEREAS, The farming and laboring interest of this county, and all other sections of our country, are threatened with serious loss and embarrassment by the formation of a gigantic combine, known as the Continental Tobacco Trust, or Combine, organized to control the prices of leaf tobacco in the United States, which combine is forcing prices below cost of production, calculated to force many growers out of the business or be bankrupted by ruinously low prices. The success of this monstrous combine would throw many thousands out of employment, and force others to go more largely into corn, wheat, hemp, cattle, hogs, &c., coming into competition with already overstocked markets. In view of this fact, it will be to the interest of all producers of the soil, and laboring people in the United States, to use all honorable means to thwart the objects of this trust. To this end we suggest to dealers and consumers to refuse to handle or use the product of the combine. Let the opponents of combines everywhere use only the product of independent factories known to be antagonistic to the combine. We call upon the legal authorities of our State, whose duty it is to prosecute illegal and evil doers, to rid our State of this nuisance. If our laws are defective we demand that they be made effective.

Resolved, That this organization be made permanent, with J. A. LaRue, Chairman, to hold said position until succeeded by future action of this organization. The Chairman of this organization is empowered to appoint a Secretary, and to call county meetings at such times as he deems advisable, and request local organizations to assemble.

Resolved, That organizations be formed in every school district in this county, with a Chairman and Secretary in each; that they report their organization to the county Chairman; that said organizations shall take action on all matters submitted to them by the county Chairman and report said action to said county Chairman.

Resolved, That this organization shall be known as the People's Anti-trust Organization.

WHEN any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they knock the whole row down by upsetting one brick. That's exactly what happens to the health when the bowels fail to perform their proper functions. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisonous matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils. Send 21 cents in one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., for his "Medical Adviser." It is a book of 1008 pages, profusely illustrated.

HORRIBLE DUAL TRAGEDY.

Father Brutally Murders His Daughter, Then Kills Himself.

Dubuque, Ia., Dec. 1.—John Gross shot and killed his daughter, Tillie, and shot himself dead at his home near Decorah. The daughter was about to leave home against her father's wishes. At his request she wrote his will and signed over her share to her mother. Immediately afterward he attacked her with a club. Her brother answered her cries for help, but was driven off. The father then shot her through the head and stomach and broke the stock of the gun over her head. Securing another gun, Gross blew the top off his own head. His wife saved her life by running away. Before committing suicide he burned the will he had compelled his daughter to write.

River News.

Keystone State for Pittsburg and Stanley for Pomeroy to-night. Down: Nisbet.

The Gallipolis Tribune says that the White Collar Line will probably charter the handsome Urania for the Gallipolis trade.

All persons interested in navigation on the Ohio river are kindly requested to communicate with Major William H. Bixby, Corps of Engineers, U. S. A., or W. H. Christian, master of United States snagboat E. A. Woodruff, Custom House, Cincinnati, Ohio, the locality of any known obstruction in the channel of the Ohio river.

The Pittsburg Press says: "Now the Cincinnati illness are going in for war. It was learned that the Cummings Line, which was started last spring and arrives and departs at this port every Friday, was cutting rates. The regular Cincinnati Line arrivals are Monday, Wednesday and Saturday, while the Cummings Line boat arrives on Friday. It is now the intention of the Cincinnati Line to place the old Hudson on this run every Friday, in order to compete with other lines. The Hudson has been working in the lower river trade, but she is known to be one of the fastest on the river, and her introduction to Pittsburg once again is not for the good of her opponents."
